FULLY AUTOMATIC MACHINES

SI No.	Description	Capacity Per Hour	Power Load KW	Area Required sq feet For Full Plant Operation approx.	Size of the Machine L x W (Feet) approx.	MOC SS 202/SS 304
1	Tomato Ketchup & Sauces	80-100 kg	13	1500	15 x 8	SS 304
2	Tomato Ketchup & Sauces	200 kg	25	2500	20 x 8	SS 304
3	Tomato Ketchup & Sauces	300 kg	30	3500	25 x 8	SS 304
4	Tomato Ketchup & Sauces	500 kg	45	4000	40 x 8	SS 304
5	Tomato Ketchup & Sauces	1000 kg	80	6500	80 x 10	SS 304
6	Tomato Ketchup & Sauces	2000 kg	150	10000	120 x 10	SS 304

SEMI-AUTOMATIC MACHINES

SI No.	Description	Capacity Per Hour	Power Load KW	Area Required sq feet For Full Plant Operation approx.	Size of the Machine L x W (Feet) approx.	MOC SS 202/SS 304
1	Tomato Ketchup & Sauces	80-100 kg	10	1200	15 x 8	SS 304
2	Tomato Ketchup & Sauces	200 kg	22	2000	20 x 8	SS 304
3	Tomato Ketchup & Sauces	300 kg	28	3000	25 x 8	SS 304
4	Tomato Ketchup & Sauces	500 kg	40	2500	40 x 8	SS 304
5	Tomato Ketchup & Sauces	1000 kg	70	6500	80 x 10	SS 304
6	Tomato Ketchup & Sauces	2000 kg	120	10000	120 x 10	SS 304

Achieve consistency and quality with our advanced tomato ketchup & sauces processing machines.

PROCESSING MACHINES

Bubble Washer-Stainless steel (SS 304) bubble washer for tomatoes features a robust structure, variable speed control, and a bubble-generating system. Equipped with adjustable water flow, debris removal, and water filtration.

Sorting Conveyor-The tomato sorting conveyor machine efficiently classifies tomatoes based on size and quality. Featuring a durable construction, it streamlines the sorting process, enhancing productivity.

Blancher-The Tomato Blancher SS304 machine is a durable and hygienic equipment for blanching tomatoes. Crafted with stainless steel (SS 304),. This machine efficiently blanches tomatoes, preserving their texture and enhancing their suitability for further processing.

Tomato Crusher-The SS 304 Tomato Crusher is a robust and hygienic machine designed for crushing tomatoes. Constructed with stainless steel (SS 304), it ensures durability and compliance with food safety standards.

Tomato Pulper-The SS 304 Tomato Pulper is a stainless steel machine designed for efficiently pulping tomatoes. It ensures durability and compliance with food safety standards.

Drum Tank Trolley with Screw Pump-The SS 304 Drum Tank Trolley with Screw Pump is a robust, stainless steel machine designed for transferring tomato puree. Equipped with a screw pump, it facilitates efficient and hygienic transfer of puree.

Cooking Kettle-The SS 304 Cooking Kettle is a steam-operated machine crafted from stainless steel. This durable kettle is designed for cooking various food products. With precise temperature control and steam operation.

Transfer Pumps-SS 304 Transfer Pumps for Tomato Sauce & Ketchup efficiently handle sauce transfer. Constructed from stainless steel, these pumps ensure durability and compliance with food safety standards.

High Pressure Homogeniser-The SS 304 High Pressure Homogenizer for Ketchup is a robust stainless steel machine designed to homogenize and refine ketchup. Operating under high pressure.

Upgrade your ketchup production with our efficient Tomato Ketchup Machinery, Quality, speed, and taste guaranteed.

Packaging Type

01

8 g Ketchup Pouches

02

950 g Side Spout

03

Centre Spout Pouches

04

5 Liter HDPE Cans

05

Squeezy HDPE Bottle

06

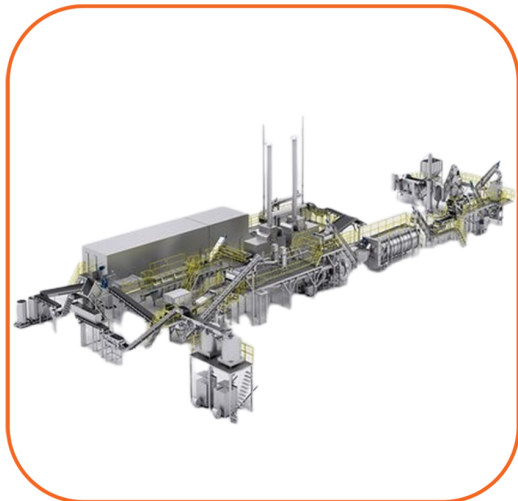

Glass Bottle

**Mayonnaise
Processing Plant**

**Sweet Corn Canning
Processing Plant**

**Mushroom & Vegetable
Canning Processing Plant**

**Protein Bar
Processing Plant**

**Beverage
Processing Plant**

**Ginger & Garlic Paste
Processing Plant**
